

**23rd Central Pennsylvania Geotechnical Conference**  
**Hershey, Pennsylvania, May 28-30, 2008**  
**Call for Papers**

**Paper Topics:**

**“Advances in Geotechnical Engineering for Transportation and Infrastructure”**

The 23<sup>rd</sup> Central Pennsylvania Geotechnical Conference is issuing a call for papers with emphasis on topics related to “Advances in Geotechnical Engineering for Transportation and Infrastructure”. Papers may address case histories, systems and technologies involving geotechnical investigations, designs, construction materials and techniques, ground improvements and treatments, and intelligent construction equipment. Emphasis is placed on modification of or advances in existing design, testing and construction practices that offer improved quality, capability and sustainability out of available and often diminishing resources, for transportation facilities and infrastructure

**Deadline:**

**May 25, 2007: Abstracts of approximately 500 words (max. 1 typewritten page).**

June 25, 2007: Notification of accepted papers.

March 14, 2008: Final papers due.
